

## Counting order (11 to 20)

Learning to count forwards from a given number helps children with solving addition problems.

Cut out these number cards and put them in the correct counting order on page 2.

11	12	13	13	14
14	15	15	15	16
16	16	17	17	17
18	18	18	19	19
20				

## Counting order (11 to 20)

Put the number cards in the correct counting order.

10	What number comes after 10?		
15	What number comes after 15?		
12	What number comes after 12?		
14	What number comes after 4?		
16	What number comes after 16?		
17	What number comes after 17?		
13	What number comes after 13?
