

# Lady Bug **SENSORY TRAY**

## What you will need:

- \* Rice
- \* Red dye
- \* Black beans
- \* Tray
- \* Spoons (optional)

  
**1**

Put your rice in a plastic zip lock bag and add a few drops of red food dye.

**4**

Get your black beans and follow the picture as shown above to guide you on how to create the lady bug look. 

  
**2**

Close the bag and encourage your child to shake the rice around to dye the rice red.

  
**5**

You can have resources such as scooping spoons or nets to encourage your child to use whilst exploring the tray!

**3**

Once the rice is red you can pour the rice into the tray and spread it out evenly.

Have Fun! 

  
**Bonus!** How many lady bugs can you find in this picture?
